

# VacuEasylift VM300 heavy wood panel

Project nr: 2088

Client:  
Wood industry,  
Sweden

This tube lifter is used to lift the pieces of wood of the primary produce once the cutting machine has passed over and withdrawn.

We have delivered two different suction feet in order to cover all sizes. One with four feet on a yoke and one with two cross bars and eight feet altogether.

## Panel lifter for heavy wooden panels, VacuEasylift model VM300
